- Family Engagement Survey will Launch in March

- Holistic Academic Co-Design Series- Complete [this interest form](#)

"Thank you! I also noticed that the Chancellor stayed the whole entire time and I very much appreciated that, given his busy schedule"

"It was good but too narrowly focused."

"I liked the presentation, but it doesn't seem like the evidence-based practices are showing up in my school. It would be great to have specific information on PD for MH for teachers, not necessarily clinicians. So teachers can better support mental health, as well. I am a strong advocate for student mental health, but not sure how to plug in."
